

EMI/RFI Shielded Rack

EMANATION SECURITY FOR CRITICAL SYSTEMS

High performance EMI/RFI shielding for COTS rack mounted electronics.

Broadband RF shielding performance up to 10GHz in the footprint of a standard datacenter rack.

Available in 42U, 30U, 18U and 7U sizes.

Complete customization of input power, data connections and rack accessories.

High-capacity cooling, front-to-back airflow for hot/cold aisle containment.

Trusted performance with over 30 years field-proven experience.

APPLICATIONS

Data Centers

High Threat Locations

Multi-domain environments

Infrastructure Cybersecurity

Government Contractors

COMPLIANCE

NSA 94-106
